

RESPONSE TO clarification request

QUESTION: A solution with 2 pockets on the same side of the suit chest, both large enough to be handled with firefighter gloves, could not be feasible.

Would you please clarify if you accept two pockets, on the upper side of the suit, one pocket on the left side and second pocket on the right side of the chest?

RESPONSE: The upper part of the jacket can have two pockets, one pocket on the left side and one pocket on the right side of the chest.
